## **DETAILED ACTION**

## Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration, filed on March 4, 2002, is defective because:

It is noted that the inventor "George Brian Cornwall" has not signed the declaration.

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6 and 41 are rejected under 35 U.S.C. 102(b) as being anticipated by Chandler et al. (U.S. Patent No. 4,936,844).

Chandler et al. disclose a bone plate 20 comprising a plate portion 30 and a substantially straight blade portion 22 extending from one another at an angle and connected to one another at a bend (see Figure 1). The blade portion 30 includes a blade end opposite the angle and the blade end includes a blade edge 28. (see Figure 1). The bend has a radius defined intermediate the plate portion and the blade portion (see Figures 1-4). The radius is dimensioned to fit closely adjacent the outside of a bone when the blade portion 22 extends into the bone (see Figure 6).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all

obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a passen

such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the

manner in which the invention was made.

Claims 7 and 42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chandler

et al. (U.S. Patent No. 4,936,844).

Chandler discloses the claimed invention except for the radius being about 0.25 inches or less.

It would have been obvious to one having ordinary skill in the art at the time the invention was

made to construct bone plate of Chandler with the radius being about 0.25 or less, since it has

been held that where the general conditions of a claim are disclosed in the prior art, discovering

the optimum or workable ranges involves only routine skill in the art. In re Aller, 105 USPQ

233.

Allowable Subject Matter

Claims 1-5 and 13-16 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's

disclosure. See PTO-892 for art cited of interest.

Art Unit: 3732

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eduardo C. Robert whose telephone number is 571-272-4719. The examiner can normally be reached on Monday-Friday, 9:30am-6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eduardo C. Robert can be reached on 571-272-4719. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
